## Software Engineering Experience

---

- Completed a full-time 420+ hour Software Engineering coding bootcamp at General Assembly.
- Learned object-oriented programming concepts, JavaScript libraries, MVC architecture for a development lifecycle, Data Structures, Big O Notation, and Responsive Web Design.
- Incorporated functionality from third-party APIs and added complexity with Python, Django.
- Technologies used: **HTML | CSS | JavaScript | Python | Node.js | React | Express | Django | Git | Github | MongoDb | Heroku | PostGre | noSQL | SQL | Hostinger | Heroku**
- **Projects:**
    1. **2048 Game -** https://github.com/Royal0817/Project-1
    2. **IMDB Mock -** https://github.com/Royal0817/Project-2

## Previous Experience

---

### Apple  •  **Tech Specialist**                                                      *08/2019 - 03/2022*

- Familiarized new Apple owners with the features of their devices.
- Provided timely and effective technical support to resolve customer issues.
- Personal trainer to customers, helping them acquire basic skills and a deeper understanding of iOS and the applications on their devices.
- Worked remotely during the Covid-19 pandemic, troubleshooting customer software related problems.

### United States Marine Corps  •  **Aircraft Hydraulic Mechanic**                      *06/2013 - 12/2017*

- Read and utilized blueprints, maintenance manuals, service schedules and other maintenance documents to troubleshoot and complete work assignments.
- Created aircraft panels for F/A-35b from composite materials.
- Performed routine maintenance operations, such as the replacement of aircraft components.
- Performed hourly, daily, and monthly inspections to check for cracks, oil leaks, burned areas, foreign object damage, warping, distortions, missing segments, and wear on parts.
- Promoted safety within the workplace by monitoring others and myself to guarantee all tasks are performed within the safety manual guidelines, and communicated with other mechanics and officers to coordinate repairs and keep apprised of safety concerns.

## EDUCATION

---

General Assembly  •  Full Stack Web Developer                          *Graduation Year - June 2022*
Northwestern High School • Hyattsville, MD                              *Graduation Year - May 2010*
